

**Biological Sciences
Division Seminar Series**

2008 Winter Seminar Schedule

January

- 22 Faculty Meeting
- 29 Tom Mitchell-Olds, Duke University, "Quantitative genomics of plants in their environments", Host: Chris Pires

February

- 5 Ned Friedman, University of Colorado, "An evolutionary-developmental perspective on the angiosperm reproductive syndrome", Host: Alejandra Jaramillo
- 12 Faculty Meeting
- 19 Michael Murphy, Portland State University, "Parentage, parental behavior and clutch size in the Eastern Kingbird ", Host: Andrew Cox
- 26 No Seminar

March

- 4 Tanja Godenschwege, Florida Atlantic University, "No escape: building a neuronal circuit in vivo", Host: Troy Zars
- 11 Faculty Meeting
- 18 No Seminar
- 25 Spring Break

April

- 1 Blake Meyers, University of Delaware, "Deep transcriptional profiling of plant small RNAs", Hosts: Chris Pires and Jim Birchler
- 8 Faculty Meeting
- 15 Life Sciences Week
- 22 No Seminar
- 29 Mary Halloran, University of Wisconsin, "TBA", Host: Anand Chandrasekhar

May

- 6 Lee Mosley, University of Nebraska, "Adaptive immunity in Parkinson's Disease: Significance for neuroprotection and neurodegeneration", Host: Katie Spears
- 13 Faculty Meeting

**All Seminars will be held on Tuesdays at 3:30 PM in the Monsanto Auditorium in
Bond Life Sciences Center
Refreshments will be served before the seminar at 3:15 PM outside of Monsanto Auditorium**
