

Division of Biological Sciences

Ecology, Evolution & Behavior Seminar Series

August

29 No Seminar

September

5 Carl Gerhardt, MU, "The evolution of extravagant signals"

12 Judith Becerra, University of Arizona, "The evolutionary play and the ecological theater: Blepharia beetles and their Bursera host" Host: Alejandra Jaramillo

19 Jack Schultz, MU, "Landscapes and labscales: ecology of a fake plant"

26* Karin Pfennig, University of North Carolina, "The ecology and evolutionary implications of trade-offs in mate recognition" Host: Carl Gerhardt

October

3 Rafe Brown, University of Kansas, "Phylogeny, ecomorphology and stages of adaptive/non-adaptive radiation in Melanesian forest frogs" Host: Carl Gerhardt

10 Leigh Johnson, Brigham Young, "Species boundaries & hybridization - examples from the phlox family" Host: Chris Pires

17 Daphne Fairbairn, University California - Riverside, "TBA" Host: Rex Cocroft

24 "TBA"

31 "TBA"

November

7 Paul De Luca, MU, Thesis talk: "Age effects on reproductive behavior in the treehopper *Umberia crasicornis*"

14 Tracy Rittenhouse, MU, Thesis talk "Costs of migration for wood frogs in Missouri"

28 Open

December

5 Open

All Seminars are Held on WEDNESDAY's from 4:00 PM - 5:00 PM in 106 Lefevre Hall

* NOTE: Be sure to Attend David Pfennig's seminar in the Divisional Seminar series on September 25, 2007.
